ABOUT MARTINA

BIO

Martina is a leader, collaborator, and trained peace practitioner who serves as the World Merit Global Ambassador and One Young World Coordinating Ambassador for North America. She has recently completed a world tour, traveling to over 30 countries while speaking at the Summit of the Americas, the United Nations, and many other conferences; facilitating workshops for youth, and mentoring young social entrepreneurs towards becoming the change they wish to see in the world. She works with young people to help them develop the soft skills necessary to become the leaders this world so desperately needs. A large focus of her work has been addressing the UN Sustainable Development Goals from a #STARTWITHIN approach. This stems from her belief that all major change in this world must commence within each and every one of us.

IMMERSIVE WORKSHOPS

Martina loves to be highly facilitative and interactive and is very open to creating tailor-made 1 hour, half-day or full-day workshops.
